

“For HAE Research” Award

The Scientific Committee and the "FOUNDATION FOR THE PREVENTION AND TREATMENT OF FATAL ANGIOEDEMATOUS DISEASE" respectfully requested of ViroPharma Incorporated a research grant for USD 10,000 to be provided for the establishment of a new award, to recognize the pioneering work and contributions for the advancement in the understanding of HAE. This USD 10,000 research grant from Viropharma will be managed by the Foundation and will be remunerated (eg, in the form of reagents, kits or other such research- related equipment) for the awardee’s accomplishments at the 7th C1-INH Deficiency Workshop.

This award – founded by the C1-INH Deficiency Working Group in 2011 – is intended to acknowledge outstanding performance exhibited in scientific, clinical or organizational contributions in the field of C1 inhibitor deficiency disease. This is an award to be won by competition, as an honor expressing high-level moral and scientific appreciation. It will be a biennial award, to be presented at C1-INH Deficiency Workshop in 2011. Aspirant should submit an application, and the following should be included:

- Scientific/professional curriculum (one page).
- Theses of the application complete with supporting references (not to exceed 8000 characters with spaces).

All applications shall be evaluated by the Scientific Committee of the C1-INH Deficiency Working Group.

The recipient of the award should summarize his/her achievements at the conference in a 15-minute free presentation.

The recipient will also be presented with a prestigious one-off HAE research objet d’art produced by a local artisan to recognize their achievements.

The deadline for submission is the same as that of the conference abstract, 15 March 2011.

The application should be submit to Henriette Farkas (farkash@kut.sote.hu)
